PREFACE

I have pleasure in presenting the Annual Report of the Public Health Department for the year which ended on the 31 December. 1965.

The number of livebirths registered during the year was one hundred and thirty two, as compared with one hundred and thirty four during the previous year. It is gratifying to report that no stillbirths were registered during 1965, and that no infant died during the first year of life. No woman died as a result of pregnancy, childbirth or abortion.

The number of registered deaths was one hundred and twenty three, an increase of six over the figure for 1964. Thirty four people died of heart disease and the same number died of 'stroke', while twenty four people died of cancer.

There was a small epidemic of measles during the year. Two new cases of tuberculosis were notified, but no one died of the disease.

A more detailed account of the work of the Public Health Department, including a section prepared by the Chief Public Health Inspector, will be found in the following pages.

RHAGAIR

Pleser imi yw cyflwyno Adroddiad Blynyddol yr Adran Iechyd
Cyhoeddus am y flwyddyn a orffenodd ar 31 Rhagfyr 1965.

Cafodd cant tri deg a dau a anwyd yn fyw eu cofrestru yn
ystod y flwyddyn i'w gymharu a un cant tri deg a phedwar yn ystod
y flwyddyn flaenorol. Pleser yw nodi na chofrestrwyd dim un
baban marw-anedig yn ystod 1965, a ni bu farw un baban cyn ei fod
yn flwydd oed. Ni bu farw un fenyw am ei bod yn feichiog, nac wrth
eni plentyn neu wrth erthyly.

Cofrestrwyd cant dau-ddeg-a-thri o farwolaethau, dengys hyn
chwech yn rhagor ar y rhif am 1964. Bu farw tri-deg-pedwar
o glefyd y galon, a'r un rhif o'r strôc, a bu farw dau-ddeg-pedwar
o'r cancr.

Bu haint gwan o'r frech goch yn ystod y flwyddyn. Nodwyd
dau ddigwyddiad newydd o'r ddarfodedigaeth, ond ni bu farw neb o'r
clefyd hwn.

Rhoddir cyfrif manylach o waith yr Adran Iechyd Cyhoeddus,
yn cynnwys rhan â baratowyd gan y Prif Archwiliwr Iechyd
Cyhoeddus, yn y tudalennau canlynol.
